3 Some of the Glowies must be new hires, they glow like the sun on crack.

1 It's means the FBI or one of the other three letter agencies.

▼ It comes from 4chan, it's short for glow in the dark and there was a story why they got that name but I have forgotten it.

They come to 4chan and try to promote extreme violence and other shit, they are doing it here now.

There are loads of other manipulations gong on here as well, some are glowies, some are leftists.
